Professional Summary

A passionate and dedicated Full-Stack Developer with a strong foundation in both front-end and back-end technologies. I completed my engineering degree in 2023, followed by a six-month course in front-end development, which strengthened my skills in HTML, CSS, JavaScript, and React. With 1.5 years of hands-on experience in full-stack development, I have successfully worked on multiple projects, combining my technical expertise and problem-solving skills to deliver efficient, user-friendly applications. Always eager to learn and stay updated with the latest industry trends, I am committed to contributing innovative solutions in the tech space.

Professional Experience

Consortia 22 ,chennai
Associate full stack devoloper
December 2023 - May 2025

- Developed interactive dashboards and animated charts to visualize car sales data for a dynamic web platform **steerapp.difuza.com**.
- Redesigned and implemented the complete UI/UX of a car sales website, including support for Dark Mode and Light Mode themes **competency.difuza.com** .
- Maintained and updated four or more live production websites, ensuring responsive design and optimal performance across all devices.
- Built fully responsive static websites from scratch using modern front-end technologies.
- Integrated backend logic using Python to handle resume submissions through the Careers page and process contact form requests **kuncapital.com**
- Collaborated cross-functionally with designers and stakeholders to align features with business goals and enhance user experience.

Freelance project E-commerce website
Lakshmi masala
Feb 2025 - Present (ongoing project)
lakshmibrandmasala.com

- Developing a fully responsive e-commerce platform using React.js, Node.js, and MySQL for a traditional masala products company.
- Building scalable UI components with React and creating RESTful APIs in Node.js with Express.js for seamless front-to-back integration.
- Implementing category-based product listings, shopping cart functionality, and an intuitive checkout flow.
- Using Bootstrap and basic Material UI elements to ensure a clean, mobile-first design.
- Managing a structured MySQL database for product details, orders, and user data.
- Continuously enhancing features based on user feedback and optimizing performance for faster load times.

Technical skills

- Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Material UI
- Backend: Node.js, Express.js
- Database: MySQL
- Tools & Platforms: Git, Postman, REST APIs, VS Code
- Others: Responsive Design, CRUD operations

Education

BE in mechanical engineering

JP college of engineering, Ayikudi

Completed in 2023 with 8.1 CGPA

Course

Front-End Development

Fabevy Institute of Technology,Tenkasi
April-2023 - Sep-2023

Certificate : click to view certificate

Languages

- Tamil (native)
